SUMMARY

I am interested in IT and everything in its orbit. I am currently a Research Scientist in a research institute but I recently began to be fascinated by web programming, e.g. developing apps and building websites. I decided to join a boot camp and I am currently being trained as a front-end developer where I've gained some experience of working in this area. I am keen to gain more experience in the field. For this reason, I am looking for a company willing to offer me an internship placement as a front-end developer. In return, I would offer my full commitment, and be a pleasant and friendly addition to your team.

EXPERIENCE

Research Scientist 2017 -
Federal Institute of Industrial Research, Oshodi, Lagos Present
State.

Served as a Principal Investigator of a team of 15 staffs on a research project and successfully met all key milestones with deadline and under budget for the institute initiatives.
